Hot Water Each Morning Puts Roses in Your Cheeks

To look one's best and feel one's best is to enjoy an inside bath each morning to flush from the system the previous day's waste, sour fermentations and poisonous toxins before it is absorbed into the blood. Just as coal when it burns, leaves behind a certain amount of combustible material in the form of ashes, so the food and drink taken, each day leave in the alimentary organs a certain amount of indigestible material, which if not eliminated, form toxins and poisons which are then sucked into the blood through the very ducts which are intended to suck in only nourishment to sustain the body.

If you want to see the glow of healthy bloom in your cheeks, to see your skin get clearer and clearer, you are told to drink every morning upon arising, a glass of hot water with a teaspoonful of limestone phosphate in it, which is a harmless means of washing the waste material and toxins from the stomach, liver, kidneys and bowels, thus cleansing, sweetening and purifying the entire alimentary tract, before putting more food into the stomach.

Many women with sallow skins, liver spots, pimples or pallid complexions, also those who wake up with a coated tongue, bad taste, nasty breath, others who are bothered with headaches, bilious spells, acid stomach or constipation should begin this phosphated hot water drinking and are assured of very pronounced results in one or two weeks.

A quarter pound of limestone phosphate costs very little at the drug store, but is sufficient to demonstrate that just as soap and hot water cleanses, purifies and freshens the skin on the outside, so hot water and limestone phosphate act on the inside organs. We must always consider that internal sanitation is vastly more important than outside cleanliness, because the skin pores do not absorb impurities into the blood, while the bowel pores do.

Women who desire to enhance the beauty of their complexion should just try this for a week and notice results. —Advertisement.

RUB BACKACHE AWAY WITH "ST. JACOBS OIL"

Rub Lumbago, Pain and Soreness from Your Lame Back—Instant Relief! Doesn't Blister—Get a Small Trial Bottle—Wonderful Liniment

When your back is sore and lame or lumbago, sciatica or rheumatism has you stiffened up, don't suffer! Get a small trial bottle of old, honest "St. Jacobs Oil" at any drug store, pour a little in your hand and rub it right on your aching back, and by the time you count fifty, the soreness and lameness is gone. Don't stay crippled! This soothing,

penetrating liniment needs to be used only once. It takes the pain right out and ends the misery. It is magical, yet absolutely harmless and doesn't burn the skin. Nothing else stops lumbago, sciatica, backache or rheumatism so promptly. It is a household necessity in use for over sixty years. —Advertisement.

GOOD HOUSEKEEPERS WONDER

How they ever got along without Red Cross Ball Blue. This really wonderful blue makes clothes whiter than snow. Get the genuine Red Cross Ball Blue at your grocers. —Ad.

NORMAL 13 TODAY

Pittsburg State School Celebrates Anniversary.

Governor Capper Honor Guest at Commemoration Day.

HOCH AND BAILEY ALSO SPEAK

Former Governor Who Created School Tells History.

Faculty Pays "Apple Fine" According to Custom.

Pittsburg, Kan., March 31.—Students of the Kansas State Manual Training Normal school celebrated Commemoration day today. Governor Arthur Capper was the guest of honor and was on the program for the Commemoration day address. President W. A. Brandenburg, presided at the exercises and the celebration will be closed tonight with a banquet for the students and faculty. The occasion is in celebration of the anniversary of the founding of the Normal. One of the features is "passing the apples" in initiation of the Kansas legislature which frequently fines members and other barrels of apples for various offenses. R. S. Rupp, first head of the Normal, was fined after the passage of a bill for the Normal in the early days of the institution. When he got home the students fined him. Ever since the apples have been passed on Commemoration day. J. T. Moore told the apple story at the morning exercises this year.

Prominent Men Speak. In addition to Governor Capper and former Governor Hoch, visiting speakers at the morning gathering included Herbert Cavanaugh, editor of the Kansas Tribune; H. J. Powell, editor of the Coffeyville Journal; and Grant Waggoner of the legislative body from Cherokee county. At the banquet, in addition to former Governor Bailey the visiting speakers are J. M. Nation, Erie, former state auditor; Warren C. Bailey, principal of the Normal schools; and E. T. Hackney, president of the state board of administration.

School's Big Growth. Former Governor Bailey signed the bill creating the Normal and he is expected to discuss the early struggles of the institution at Topeka. In 1903-4, the first year, there were 143 students enrolled in the institution. This year the total enrollment is 2,475.

MODEL COMMUNITY CENTER. Russell High School Boys Build Municipal Hall in City Park.

Russell, Kan., March 31.—Russell's community center building, 42 by 72 feet with a 20 by 34 stage annex and a seating capacity of 550 persons is the center of unusual activity in spring sports. It was pointed out here today by Professor V. M. Reppert, teacher of manual training in the Russell high school. Just recently the business men of the city have been using the community hall for indoor baseball, volleyball and handball. All winter long the various school teams have been playing basketball in the hall, it was stated.

Around this community center, which was built by the boys of the manual training class in the high school, in exactly forty days, the social, athletic, educational and fraternal activities of the entire community of Russell center. It is asserted. The business men of the town subscribed \$1,500 which was used to buy the material for the building and the school boys, under the direction of Professor Reppert, gained practical experience in manual training by doing the actual work. The hall belongs to the community.

Since the building has been constructed more than 300 playground children at one time have used the structure for a big indoor playground and the churches and Sunday schools make frequent use of the hall for their entertainment.

The community hall stands on the grounds of the Russell city park, and is surrounded by a complete set of playground apparatus. It is said to be a model of the social center idea which is one of the significant features of the modern thought in education.

TOWN IS OPENED IN PRATT. Trousdale a Wheat Field Last Fall—Push Anthony-Northern.

Pratt, Kan., March 31.—Pratt county has a new postoffice and the name is Travel. It is located on the old historic spot of Hopewell, where a church of the Quaker denomination has stood for the past thirty years. The community around the new postoffice has always been noted for its ardent church supporters.

The new town is one opened up by the Anthony & Northern railway and the name was changed on account of a postoffice in Kansas of a similar name. The city of Trousdale, which was a wheat field last fall, now has a postoffice. The new road has its new mail train equipment ready for use and will put this first class train in use as soon as the road is opened up to Larned.

Several hundred extra men now are being taken to the front this week to hurry along the work of laying steel and the road into Kinaley is being pushed along as well as the one out of Larned.

WILSON TO HUTCHINSON. Topeka School Head Scheduled to Address Teachers April 7.

Hutchinson, Kan., March 31.—Superintendent H. B. Wilson, of Topeka, will be brought here by the city teachers on April 7 for a talk to which the public is cordially invited. The Topeka man, in collaboration with his brother, who is one of the faculty of the University of Iowa, is the author of a new book, "Motivation in School Work," and his talk will be along that line, if the suggestion of Superintendent J. O. Hall is followed.

The distinction of being the highest paid city school man in the state belongs to Mr. Wilson. The address will be made at the high school building at 8 o'clock.

CAN GROW ASPARAGUS HERE. Kansas Soil Adapted to Difficult Crop, Says Professor Ahrens.

Manhattan, Kan., March 31.—Asparagus will grow in most Kansas soils provided they are sufficiently rich to meet the feeding habits of the plants, says L. F. Ahrens, assistant professor of horticulture in the Kansas State Agricultural college.

"The ground for planting asparagus may either be prepared in the spring or fall. In fall preparations of the field, well rotted manure should be plowed under and prospective asparagus garden. The subsequent steps of preparation are similar to preparing the ground for gardening.

25 Years Ago in Topeka

From the columns of THE STATE JOURNAL

March 31, 1891. President Frank McGrath of the Farmers Alliance is sending out a call to the various county and district alliances of Kansas for the election of delegates to the national conference at Cincinnati.

Edwin Locke, pastor of the Methodist church at Lyndon, is in the city.

A. L. Van Antwerp left today for Silver City, New Mexico.

Governor Humphrey will return from Albuquerque to visit her sisters.

Mrs. A. R. Bunker of Potwin has been called to Washington, Ia., by the illness of her father.

Mrs. O. K. Swayze departed today for Albuquerque to visit her sisters.

The mayor has returned, unapproved, the ordinance granting additional right of way to the K. & P. railway on Adams street, basing his veto on the ground that before any additional rights are granted the railroad company should settle with the property owners whose rights are affected.

An ordinance repealing the right of the North Topeka Silver Lake and Rossville Rapid Transit railway was recommended for passage by the committee on streets and walks.

Miss Hattie Holman has the common complaint, the grip.

J. A. Bartell was able to be out today. He has had the grip.

may either be prepared in the spring or fall. In fall preparations of the field, well rotted manure should be plowed under and prospective asparagus garden. The subsequent steps of preparation are similar to preparing the ground for gardening.

"Asparagus is either from seed or from one to two year old roots. The seeds are planted thick in the rows in a nursery bed, and when the plants are grown to the desired size, the roots are transplanted to the permanent field. For quick germination the seed is soaked and warmed before planting. One year old roots have given satisfactory results in Kansas.

HODGEMAN PIONEER GONE. James Malone, 98, Had Aspired to Reach the Century Mark.

Dodge City, Kan., March 31.—The funeral of James Malone was held from the Catholic church here. He was a pioneer of Hodgeman county, having settled there in 1833. He was a native of County Wexford, Ireland, and was born just at the close of the Napoleonic wars. He was 28 years, 10 months and 6 days of age. His wife is 84.

Mr. Malone came to America in 1832 and settled first at Harard, Conn. Of the eleven children born to Mr. Malone and his wife, only three are living in the north. One is west, Mike, who is in charge of the farm on which his parents lived in Hodgeman county, and Pat, of Dodge City. The latter lived in Dodge City for years and does odd jobs about town.

In spite of his age Mr. Malone's mind was clear and his health good up to the time of his last illness. His ambition had been to live to be 100 years of age.

LARGEST WELL IN KANSAS. Thousand Barrels of Oil Daily in Field Near Augusta.

Wichita, Kan., March 31.—Oil men are in a flurry here over the report that the fifth well on the E. C. Varner lease, five miles south of Augusta, is flowing a thousand barrels a day with the drill bit a foot in the sand. A five-inch pipe is not large enough to carry away the oil.

This well is within 600 feet of the Ed Varner gusher, which sent the price of leases in the field from as low as \$100 an acre to as high as \$1,000. The oil runs more than sixty feet in thickness. Oil men assert that the Varner No. 5 will be the biggest ever brought in in the state of Kansas. The sand was found at 2,475 feet.

ST. JOHN TO COUNCIL GROVE. Former Governor and Howard Kershner to Speak for Prohibition.

Council Grove, Kan., March 31.—John P. St. John, former governor of Kansas and Howard Kershner, Flying Squadron, will speak here on April 4 at the Christian church. Howard E. Kershner, formerly manager of the Flying Squadron in New England, will also deliver an address.

Both men will speak in the interest of the movement for national prohibition. From the Governor St. John will go to Emporia where he will attend the stat. convention of the Prohibition party for two days.

NEW TOWN GROWS RAPIDLY. Communities Created by the Salina Northern Are Booming.

Tipton, Kan., March 31.—The new towns along the new Salina Northern are building up in fine shape as the construction of the road progresses. Hunter, eleven miles from here, is in an ideal location, with a grove south and east of the site, and an abundance of pure water.

Ash Grove, another newly platted town, is a promising place with a school house already built, and a church.

THERE IS A VAST ARMY

of men and women who really never know what it is to enjoy sound, vibrant health—who would be surprised to suddenly gain that exhilarating vitality that robust health brings.

Literally thousands without any particular sickness live in "general debility," as the doctors call it—have headaches, are tired and indifferent. To all such people we say with unmistakable earnestness—"Take Scott's Emulsion after meals for one month and allow its rare oil-food to enrich and enliven your blood, quicken your circulation, stimulate nutrition, and aid nature to develop that real red-blooded life that means activity, enjoyment, and vigor. Scott's Emulsion is not a drug, but a pleasant food- tonic—free from alcohol. One bottle may help you.

Scott & Bowne, Bloomfield, N. J. 15-31

Showing to Packed Houses

The above phrase is about the best way we know how to describe the crowds that visit our Second Floor, Apparel Sections.

Every day and almost all day mothers and daughters come here by the score. In the majority of cases they buy before they leave, when intent upon buying; others look, go away and come back, some may not come back, but the barometer of business shows that we are selling more women and misses their apparel than ever before. This simply goes to show that we must have the styles and prices that appeal to the greatest number. It means that we are carrying out more and more the policy of—"Crosby's always for the Best Values."

Join the throng tomorrow; come whether you are just ready to buy or not—see and post yourself on the positively correct and latest styles in—

Spring Suits at.....\$15.00 to \$59.00
Spring Coats at.....7.50 to 45.00
Spring Dresses at.....5.00 to 50.00
Spring Skirts at.....3.95 to 23.50
Spring Blouses at.....1.00 to 17.50

Silk and Muslin Underwear—and don't forget there is no store whose styles in underwear are superior to ours—no newer, fresher or more perfectly made garments anywhere and no place where a dollar will buy more value.

What Kind of a Hat Shall I Buy?

This is a question that is on the lips of thousands—yes, millions of women today.

To the women of Topeka and vicinity we say: come here and let us help you reach a decision. We will see that you get hat satisfaction in every sense of the word.

We'll send you off with a hat that is individual—one that is becoming—one that is comfortable to the head and one that meets your idea of price.

And what's more it will be right up-to-the-minute in style.

Jaunty shapes are a distinguishing feature of the hats for spring. Some of them flare to the top, others turn abruptly from the face or have a pretty roll, bend or ripple to the side or back. We might say they are daintily smart.

What Will It Mean to YOU if You Miss the Advantages of This

March Sale of Furniture and Floor Coverings?

It will mean just this! You will have allowed to pass the best opportunity you will have between now and August, when we hold our next semi-annual sale, to select from the largest and most complete stock of high grade furniture, rugs, carpets and other floor coverings shown in Topeka.

It will mean that you have passed up the opportunity of saving a very considerable portion of the regular selling price—and we might add that advances being made by manufacturers will have a tendency to make furniture prices higher when it becomes necessary for us to place new orders.

The overseer of every home should weigh this question. It means dollars and cents and satisfaction to buy now—TOMORROW—as the sale comes to a close on that day.

If you would like to avail yourself of the savings possible, but are not in a position to take the goods at once, we will lay them aside and deliver when requested.

Our Dignified Credit System

While it takes a lot of money to run a business as large as this, we are glad to grant all worthy persons the privilege of buying furniture and floor coverings on a Confidential Credit Plan, which permits of Making Payments as the money can be spared—WEEKLY or MONTHLY.

See the Range Eternal

The Range Eternal is a new addition to our line, and if we are not overstepping the proper bounds, we want to say: "It is Some Range." How a factory could build a better or more substantial one we cannot see. The metal used in its construction is the Strongest, Non-Corrosive, Non-Rusting Metal ever used in any range.

You may not need a range, but it will do you good to see it, and we would like you to do it while—

The Factory Representative is Here

Let him have a few minutes of your time tomorrow. Not with the idea of having you jump right in and buy a range, although we have sold several this week, but for the many good points you will gather from him about ranges, and for the purpose of impressing on your mind that your next range should be an "ETERNAL."

Shopping Pointers
